The Hon. Timothy H. Pfeiffer

120 Broadway.

New York City -

Sir:

Being interested in reading
of the Hall-Mills case in N. Y.
Times, I beg pardon for the lib-
erty I take in suggesting that,
as the moonlight may play an
important part, there could
have been no moonlight on the
night of the murder until a
while after midnight. The night
of Sep. 14-15, 1922, was nine days
after the full moon of Sep. 5.

One who wishes justice.

105986 - INV - Gibson - pl

Memorandum for:

Oct. 18, 1926.

Mr. T. N. Pfeiffer
(c/o Mr. Watson's office)

Cutley, in his letter addressed to Mr. Watson dated September 17, 1926, states that a man named Roche of 677 Montgomery St., Jersey City (in the automobile business) has in his employ a man who says about ten (10) years ago he knew Jane Gibson in South Carolina and visited her for over a period of a year, during which his relations with her were quite intimate. He has not seen her for a couple of years, but would be willing to give whatever information he has. He subsequently brought her to Pulatka, Florida, At that time she was known as Latrasse and Mrs. Philopina.

Has this been followed up yet?

Yours very truly,

NJP/o

I notice also that we have the address of Mrs. Cerrenner in New Brunswick as 25 Prospect Place - this in April 1925. Do you think it advisable to have the neighbors and landlord of that property interviewed with respect to Jane Gibson?
